WALBALLA, S. C.:

WEDNESDAY, JUNE 24, 1914.

" ALL THINGS ARE READY."

Elsewhere in this issue we print two advertisements, one announcing an election on the question of issuing \$6,000 of bonds by the town of Walhalla for the purpose of erecting and maintaining an electric wire and light system, and for three commissioners of public works, the other for the ratification of the contract that has been made by the mayor and clerk of the City Council with the Walhalla Light and Power Company. The election on both matters will be held at the same time and place-Jas. M. Moss's office, on Main street. on Monday, July 6th-the polls to he open from 8 o'clock a. m. until t o'clock p. m.

It should be a glad day for the citizens of Walhalla when they are given the opportunity—the privilege of expressing their wishes at the polls in the matter of securing eleccrie lights for the town. Probably no town in the State has ever wresaled longer and been disappointed oftener than has Walhalla in the matter of securing electric lights for the municipality. It is also quite probable that, when opportunity came for the people to express their vishes, none ever had a more favorable or more liberal proposition presented to them than have the people of Waihalla. The contract that has been entered into by the Council with the power company is an extremely liberal one for the citizens, and we hope that when the votes have been counted on the 6th of next month, there will be found to be not r single ticket whereon the word No" appears.

Walhalla has stood in the dark too long already. Let us get out into the light at this the first really feasiale and practical opportunity presented, and let every citizen entitled to a vote on the matter cast that vote. It is not enough that a few should do so. It may be a little trouble for some to go and vote, but it is a duty that each owes to his rown to east his ballot on public questions, and the path of duty and interest in this case seems so clear to us that it must be apparent to all.

Let every vote be cast, and let every one be favorable both to the issuing of the small amount of bonds and the ratification of the contract that has been agreed upon. They are both important and necessary to the best interests of the town as a whole.

#### WILL REMAIN IN PENNSYLVANIA

In remitting for his Courier for another year Prof. C. L. Harris, formerly of Oconee, but now of State College, Pa., where he has been for a year, gives us this interesting information and a few facts that show what a great institution he is conmeeted with:

"I am very glad to tell you that I will be back at this college next We like it here very much. and we appreciate the many advantuses that are offered us, both educationally and socially. There are already many here from the South, and I would be glad to see more of them come here.

"Just to give you an idea as to how much it costs to run Pennsyl-vania State College, I will tell you that at the last session of the Legislature, the State appropriated \$1 .-226,000 for this college. And vet they cry for more and say they have to economize in order to make ends meet. They are now putting up several new buildings and expect to con-

The Easley Progress continues to hold to the opinion that Easley is still on the map. We admit it, but what a pity to spoil a good map.

Senator McLaurin has dropped out of the race for Governor, and there are but few who will fail to acknowle edge that he displayed more wisdom in doing so than he did in entering the race. Mr. McLaurin has made a wise decision.

It was a novel sight last Thursday when rain fell in Walhalla. For ten weeks only a few drops had fallen, and the cool showers that came one after another throughout the day were welcome indeed. The drought has been broken, however, and this section will doubtless be blessed with good showers from now on. Sunday afternoon there were three good ones that fell throughout Walhalla and well into the country west of town, though they extended but short distance to the east, we are informed. Gardens have been re-freshed and there is still time to grow many late vegetables.

#### CLOVERS AND GRASSES.

Editor Keowee Courier: Please publish the following outline of a plan that has met with success nearly every county in the State for sowing clover and grasses

Sow to peas, say two bushels ner Use from 300 to 600 pounds of 16 per cent acid; use a turn or disc plow to plow them in; harrow About the last of August or first of September cut in with harrow, then turn with turn then apply 300 to 600 or disc plow; pounds of acid, and harrow: then drag with log drag. Follow with 600 to 900 pounds of quick lime or 900 to 1,500 pounds of agricultural lime; again harrow, then drag three Sow 15 pounds of red clover seed, half bushel of Italian rye, and half bushel of tall meadow oat grass There must be 600 to 1,000 pounds of dirt taken from a field where clover has been grown. This dirt must not be exposed to the sun or light any more than is absolutely necessary in handling. Sow broad-cast or dri'l in with a fertilizer drill. Use a smoothing harrow, followed with drag. In November use stable manure, well pulverized, from 6 to 20 two-horse loads. If it does not winter kill, you will be delighted Very truly yours, M. G. Holland. with results.

Washington, June 23 .- Judge Emory Speer, of the Southern District of Georgia, is not to be impeached by the House of Representatives. This is made practically certain by the report of the sub-committee of the House Judiciary Committee which has been investigating his conduct.

Though they fail to recommend impeachment procedings, the majority of the sub-committee, headed by Representative Webb, of North Carolina, chairman of the Judiciary Committee, indicate that the reason of this conclusion is a fear that evidence cannot be obtained at this date to sustain the charges before the court of the United States Sen-
